**Description:**

Advanced SystemCare 11 is an all-in-one yet easy-to-use PC optimization software to clean, optimize, speed up, and protect your system, as well as secure your online privacy. With the best 1-click approach, it is easy for you to clean up junk files, leftovers, redundant registry entries, and invalid shortcuts, sweep privacy traces, remove spyware threats, accelerate Internet speed, manage startup items, and fix system weakness and security holes.

Taking advantage of the redesigned Performance Monitor, Advanced SystemCare 11 not only monitors your PC's RAM/CPU/Disk usage, CPU/GPU/Mainboard temperature, and fan speed in real-time, but also lets you quickly end the processes that slow down your PC to make PC more responsive and faster.

For better privacy protection, Advanced SystemCare 11 optimizes FaceID, Homepage Advisor, and Surfing Protection & Ads- Removal. FaceID automatically captures intruders secretly accessing to your PC or trying to steal your personal information and important files. Homepage Advisor monitors and notifies you of any change to homepage and search engine in case of any unwanted modifications. With Surfing Protection & Ads- Removal, you can enjoy secure & smooth surfing experience without various online threats and annoying ads.

What's more, Advanced SystemCare 11 rebuilds and improves over 10 useful tools and features, such as Startup Manager, Default Program, Large File Finder, Hardware Accelerate, and MyWin10 to make old PCs live longer and new PCs run faster!

**What's New:**

#### New features:

- + New Security Reinforce helps diagnose and fix system security weaknesses with 1-click.
- + New Homepage Advisor detects any changes to your homepage and search engine to avoid browser hijacking.
