Description:

IObit Software Updater is an ad-free and light freeware, which helps you update all outdated programs with just 1-click and install all popular must-have programs easily.

The 1-click update solution frees you from updating outdated programs one by one from different sources or websites, which can save you a lot of time and work. IObit Software Updater enables you to update programs automatically at a scheduled time and shut down/reboot your computer automatically after the update is completed. Besides, IObit Software Updater provides a large software database for featured must-have software in various categories: Browsers, Security, Social, Multimedia, Runtimes, and Utilities & Tools. You can easily and quickly install all selected software with 1-click without worrying about annoying ads

and/or bundleware, even malware. It must be your best choice when you need to install many programs, especially when you get a new computer or after you reinstall, format, or upgrade your computer.

To sum up, IObit Software Updater is a convenient and practical utility for your computer whenever you want to update or install software.

What's New:

- + 1-Click to update all outdated programs quickly and securely.
- + 1-Click to install the must-have programs without any ads or bundleware.
