**Description:**

IObit Uninstaller 8 is a perfect uninstallation tool. It provides an easy and secure way to remove unnecessary programs, Windows apps, Universal Windows Platform (UWP) apps, malicious or Ad plug-ins, and thoroughly removes all leftovers, giving you a clean PC and a secure & smooth online surfing experience.

As the first uninstall utility that comes up with the idea of bundleware removal, IObit Uninstaller 8 monitors program installations in real time and provides an easy way to uninstall bundleware. New bundleware category is added in IObit Uninstaller 8 navigation panel where lists all the bundled products so that you can uninstall all unwanted bundleware conveniently and quickly. Another wonderful new feature is Easy Uninstall which allows you to quickly uninstall a program from its opened window, desktop icon, or system tray icon.

There are also many improvements in IObit Uninstaller 8. The enhanced scan engine ensures quick and thorough cleanup of all leftovers, just like they've never existed on your PC. With the unique and enlarged database, IObit Uninstaller 8 makes it easy to uninstall stubborn programs that cannot be uninstalled in the normal way. Software Updater is also improved to easily keep more important programs always up to date. What's more, IObit Uninstaller 8 supports removing Windows apps under non-administrator accounts and the latest UWP apps on Windows 10 to free up more storage space.
