Description:

Smart Defrag is a safe, stable and easy-to-use disk defragmenter that provides user maximum hard disk performance automatically and intelligently.

With the new generation of ultra-fast defrag engine, Smart Defrag 5 can not only defragment users' HDD but also trim SSD to accelerate disk read/write speed and enhance disk durability. Users can easily defrag large files and consolidate free spaces with the newly added Large File Defrag and Free Space Defrag for more efficient defragmentation. Also, users can enjoy top game experience with Game Optimize in Smart Defrag 5.

What's new:

- + New Defrag Engine supports multithreading for ultra-fast, stable, and efficient defrag.
- + New Smart Defrag/Optimize Technology to intelligently apply the most suitable defrag/optimize method for different disks to reach top performance.
- + Added Defragment Specified Files under Boot Time Defrag for more thorough and effective defragmentation.
- + Added Large File Defrag supports defragmenting large files to accelerate disk read/write speed and enhance disk durability.
- + Added Free Space Defrag maximizes the disk read/write performance by consolidating the free space for large contiguous block.
- + Added Silent Mode to intelligently adjust defragmentation priority according to user preference and disk status.
- + Supported Scheduled Task to defrag disks automatically when PC is idle.
- + Added Auto Update to always keep your Smart Defrag up-to-date.
- + Added new Readable skin and more intuitive interface for easier use.
- + Supported more than 30 languages.
- * And more can be discovered.
