+ Larger software database helps update 22% more programs
+ Auto update keeps your programs always up-to-date
+ Smarter update algorithms guarantee more accurate updates
+ Strict manual tests ensure all updates are safe and clean
+ And more can be discovered by you

Description:
IObit Software Updater is a simple and lightweight program that provides you with a single-click solution to update obsolete software and install must-have software to keep your operating system running smoothly.

One-click updates
IObit Software Updater saves you a great deal of time from manually visiting different distributors' websites and considering the safety and security of the update. Furthermore, improved update algorithms bring you the most efficient update experience. IObit Software Updater also enables updating the multi-language versions of well-known programs such as Firefox, WinRAR, and Mozilla Thunderbird.

Customized Automatic Updates

IObit Software Updater allows you to check and update programs automatically at specified intervals based on your needs. When the update is complete, your system can be conveniently shut off or reset.

One-click Installation
Along with software updates, IObit Software Updater can help you install the necessary programs quickly and easily. It currently supports installing 450+ popular programs in various categories: Browsers, Remote Work Tools, Security, Social, Multimedia, Runtimes, and Utilities & Tools.

IObit Picks
IObit Software Updater offers the best pricing for several interesting and helpful programs under IObit Picks.

Conclusion

Overall, IObit Software Updater is the best choice for installing or updating software, especially if you have a new computer or have recently reinstalled, formatted, or upgraded your machine.
